About AMCHAM

AMERICAN CHAMBER OF COMMERCE IN INDIA

The American Chamber of Commerce in India (AMCHAM India) is the apex chamber of U.S. industry in India. AMCHAM India is a member to the U.S. Chamber of Commerce in Washington DC and the AmChams of Asia Pacific.

Established in 1992, AMCHAM has over 400 U.S. companies as members. The incumbent U.S. Ambassador to India is the Honorary President of AMCHAM. AMCHAM enjoys a very close relationship with the U.S. Embassy and complete support in fulfilling its objectives. Country Heads of leading U.S. companies constitute the elected National Executive Board. The chamber's mission is to assist member companies to succeed in India through advocacy, information, networking and business support services. AMCHAM is headquartered in New Delhi and has regional chapters in Bengaluru, Chennai, Hyderabad, Kolkata and Mumbai.

MISSION

- Promotes activities that encourage and stimulate bilateral trade between India and the U.S.
- Supports business operations of its members.
- Provides a forum for U.S. based business organizations in India to discuss and identify common issues, economic and commercial interests in India and the U.S.
- Institutes sectoral committees which provide opportunities and a platform to its members for consensus building and networking.
- Identifies member issues and concerns and works closely with the Indian government to provide support for ease of doing business.

AFFILIATIONS

AMCHAM is affiliated with:

- U.S. Chamber of Commerce in Washington, D.C.
- AmChams of Asia Pacific
- AMCHAMs in other countries

MEMBERSHIP

AMCHAM membership is offered to U.S. - based companies operating in India under one or more of the following categories:

- As a 100% subsidiary of a U.S. company
- As a Branch Office (with the approval of the Reserve Bank of India)

- As a Liaison Office (with the approval of the Reserve Bank of India)
- As a majority equity holder in a joint venture
- As an equal partner in a joint venture with the management control held by the U.S. company.
- Non majority U.S. owned companies engaged in those businesses which are not allowed to be majority owned on account of government imposed sectoral caps.

Companies that fall in any of the above categories, would be eligible for enrollment as a corporate member. Employees of member companies can also apply for additional membership.

MEMBERSHIP BENEFITS

Members of AMCHAM India are part of an active and dynamic American business association with more than 400 American companies in India as its members. AMCHAM is an important voice for policy advocacy; a critical source for business intelligence; a vibrant platform for networking; and expanding your business.

Benefits and services include:

Sectoral Committees

AMCHAM has 20 sectoral committees. These committees discuss policies and procedures relevant to specific industry sectors. Based on inputs provided by members, AMCHAM prepares position papers and initiates dialogue with government authorities from time to time. These committees are headed by senior members of AMCHAM having expertise in the respective sector.

Meetings with U.S. & Indian Government Officials

The U.S. Ambassador is the Honorary President of the Chamber and AMCHAM regularly meets with the Economic and Commercial Sections of the U.S. Embassy and other U.S. diplomats for interaction on important policy measures, trade and investment issues, and business opportunities.

Regional Linkages

AMCHAM provides business linkages with neighbouring countries such as Sri Lanka, Bangladesh, Maldives, Bhutan, Myanmar and Nepal by coordinating through AMCHAMs in these countries and other bilateral chambers to explore business opportunities for U.S. companies in these countries.

Networking opportunities

AMCHAM offers many networking opportunities through participation in breakfast meetings where members interact with each other and hear distinguished speakers; luncheon meetings with U.S. and Indian government officials, and visiting trade and investment missions providing ample opportunities to members to expand their networks.

Information

AMCHAM provides updated and useful business information through the following channels:

- **AMCHAM website:** www.amchamindia.com

The website gives information on the various activities, sectoral committees, representations sent to government departments and publications.
- **Through surveys** conducted from time to time on matters of concern and interest to member companies.
- **AMCHAM Directory of Members:** The directory is a yearly publication which gives updated information on member companies and their business interests in India.
- **Other publications:** AMCHAM brings out various publications with the help of knowledge partners on important subjects. Recent AMCHAM publications include:
 - U.S. India Defence Partnership: Co-Production & Co-Development
 - Enhancing Last Mile Connectivity: The Silicon Valley of India
 - Innovative Technologies & Therapies and the Last Mile Delivery Initiatives
 - The India Edge: U.S. Industries Catalysing the Growth Trajectory
 - Future of Urban Mobility
 - Capability Deck: Sustainable Initiatives
 - Global Capability Centers: Powering the Growth of Indian Commercial Real Estate
 - Strengthening American Business and Investment in the Indo- Pacific
 - Ease of Doing Business 2.0: Accelerating Transformation for India @100
 - Presentation on Production Linked Incentive (PLI) Scheme: Opportunities for U.S. Companies

Access

AMCHAM provides its member companies an opportunity to meet with key decision - makers and share their individual company concerns and contribute to sustainable solutions.

Advertising Opportunities

AMCHAM provides advertising opportunities to members in its publications including the Directory of Members and other publications brought out from time to time.

Company Promotion

AMCHAM India member companies have the opportunity to take advantage of AMCHAM's network and event planning services when their high level leadership is visiting from the U.S. AMCHAM helps organize roundtables and interactions with the visiting leadership and members.

Networking Opportunities Abroad

AMCHAM provides networking opportunities through AMCHAM India's affiliation to:

- U.S. Chamber of Commerce
- AmChams of Asia Pacific
- AMCHAMs in other countries

Social & Networking Events

AMCHAM regularly organizes the annual Christmas Ball and golf tournament providing an opportunity for socializing and networking with members and other invitees.

SECTORAL COMMITTEES /ACTIVITIES & CHAIRMEN

AMCHAM India's committees provide members an exclusive platform to connect with leaders and colleagues in the industry to discuss concerns, share solutions and glean business insights. AMCHAM's sectoral committees meet regularly to assess sector specific business environments, devise strategies and to shape advocacy efforts through these committees.

AMCHAM currently has 20 Sectoral Committees:

Agriculture & Food Processing Committee

Agriculture plays a vital role in India's economy and the food processing sector has a critical role in connecting farmers to domestic & global markets. The sectors are undergoing a technological revolution which will help in realizing their maximum potential. U.S. companies have established themselves as strategic partners and contributors to the Indian agriculture & food processing sector. AMCHAM member companies have been significant partners in the growth of the sector and are committed to bring the best technology and providing gainful employment.

U.S. agriculture and food companies are committed to transform this pertinent sector and contribute in nation building. The committee's objective is to be an active partner in India's journey towards ensuring food security for all. The focus also covers making India a global food hub, AgTech, sustainability, ESG and digital transformation. With India being a powerhouse of grains and produce, the sector has the potential to provide immense benefits to the country, boosting farmer incomes, creating jobs, and contributing to the 'Make in India' vision.

Chairman

Mr. Prashant Peres
Managing Director – South Asia
Kellogg

Co-Chairman

Mr. Raju Kapoor
Director – Public & Industry Affairs
FMC India Pvt. Ltd.

Anti - Corruption & FCPA Compliance Committee

The Anti-Corruption & FCPA Compliance Committee assists U.S. companies operating in India to manage the adverse effects of corruption on the business environment. It provides a forum for members to meet for discussions on varied topics such as anti-corruption challenges, code of ethics, anti-corruption best practices, POCA, etc. The committee focuses on recent trends in FCPA, legislations and anti-corruption enforcement and how they affect corporate compliance programs. The committee conducts meetings at regular intervals to discuss current issues and update members with the latest developments relating to the subject.

The committee has been organizing an annual Anti-Corruption compliance and risk management master class for the past ten years. Latest edition included thematic sessions around employees: as the biggest asset or the biggest threat, evolution of TPM, India's corruption barometer, conducting investigations in cyber age, digital personal data protection act and its impact on businesses, overview of the FBI and intersection of ESG and compliance.

Mr. Gaurav Ajmani
Associate General Counsel, Business Conduct & Ethics
Amazon Seller Services (P) Ltd.

Co-Chairperson

Ms. Bhawna A. Ranganadhan
Deputy General Counsel, Legal and Compliance
Genpact

Aviation Committee

The civil aviation industry in India has emerged as one of the fastest growing in the country over the last three years. India has become the third largest domestic aviation market in the world and aims to become the largest by 2030. India's civil aviation industry has flown many miles, set numerous milestones, and overcome many challenges to become one of the world's most lucrative aviation markets. The growth of the sector has been monumental. To unleash its true potential, the government has set up a roadmap to achieve the vision of 2047 for the civil aviation sector focusing on policies aimed at modernization, future technologies, and last mile connectivity.

AMCHAM's Aviation Committee discusses the growth and development of the aviation sector in India and addresses opportunities, challenges, and policy framework for private sector participation. The committee meets officials at the Ministry of Civil Aviation and other offices to take up issues on behalf of aviation companies, MROs, and other players in the civil aviation sector. The committee aims to submit position papers and advocacy documents with a focus on policy support and Make in India. The development of tourism and travel has contributed to increased passenger traffic in India and the growing emphasis on regional connectivity, expansion of existing airports and construction of new greenfield airports have driven an upward trend in the Indian civil aviation industry. U.S. companies support the Ministry of Civil Aviation's vision to promote rapid growth of the sector, improve ease of doing business, advance regional connectivity, and open flying opportunities to India's largely untapped market of over 300 million middle-class citizens by enhancing affordability and connectivity. AMCHAM companies have been significant partners in the growth of the sector and are committed to bring the best technology and provide gainful employment at every level of operation while offering innovative solutions, cooperation and partnership with Indian industry and skill development empowering women participation in aerospace and sustainability.

Boeing Commercial Airplanes

Corporate Social Responsibility (CSR) Committee

The CSR Committee seeks to build on the CSR framework of the Companies Bill and support its member companies in integrating these ideas into their ongoing practices. It provides a forum for members to meet for interactive sessions and address questions on various topics related to CSR to support companies' unwavering commitment toward a social purpose.

The committee has produced several compendiums/books on CSR activities of members showcasing the achievements of U.S. companies in CSR. The committee aims to meet four times a year, often inviting specialized speakers to gain a better understanding of emerging CSR trends. AMCHAM has an MOU with USAID and they play an active role in the committee.

Chairman

Mr. Harish Krishnan

FTI Consulting India

Co-Chairman

Mr. Ripu Bajwa
Director and General Manager
Dell Technologies India

Defense Committee

U.S.-India relations have emerged stronger through the pandemic. Over the last two decades the U.S. has become a significant supplier of defense equipment to India, become India's largest military exercise partner, taken steps to improve inter-operability and coordination, and signed technical agreements to further expand India's access to high-end American defense technology. The multifaceted relationship has made considerable progress to push forth the bilateral defense cooperation and this continues to have an upward trajectory. As a major supplier of aerospace and defense products to India, the U.S. is keen to look for a way forward in meeting India's needs and aspirations of achieving self-reliance. The signing of all the foundational agreements to bolster defense ties between the two nations and defense sales to India now exceeding \$22 billion is a testimony to this. Significant collaboration opportunities in strategic and technical expertise across defense infrastructure, defense systems and the electronics equipment segment focusses on ways to strengthen military-to-military engagement and bilateral defense trade, including industry collaboration.

The Defense Committee is a forum for discussion on topics related to government-to-government and private sector involvement in the growing U.S.-India defense relationship. Committee members convene monthly for business meetings, meetings with U.S. government officials, seminars and conferences to address topics of U.S. defense engagement in India and prepares submissions to the government highlighting proposed recommendations to defense sector policies.

Partner and Head – Aerospace & Defence

KPMG India

Diversity & Inclusion Committee

Diversity and inclusion has become a CEO-level issue around the world. Organizations of today operate as a network of teams, thrive on empowerment, open dialogues, and inclusive working styles. Leading organizations now see diversity and inclusion as a comprehensive strategy woven into every aspect of the talent life cycle to enhance employee engagement, improve brand, and drive performance. The era of diversity as a “check the box” initiative owned by HR is over. CEOs must take ownership and drive accountability among leaders at all levels to close the gap between what is said and actual impact.

Our Motto:

‘Bring people together, treat differences as strengths and turn the unique contribution of every team member into an asset that contributes to the success of one and all.’

Scope of the Committee:

- Create a platform for networking, learning and sharing for industry experts
- Best practice sharing opportunity
- Invite industry experts to share their expertise and experience on leading practices and trends – globally & locally

Pillars of the D&I Committee:

1. Gender Diversity – Focus on Advancing Women
2. LGBTQ
3. Differently Abled

Honorary USG Chairman

Mr. Mike Hankey

Economic Affairs Committee

Economic relations between India and the United States comprise of bilateral trade in goods and services and investments across several industry sectors. Presently the bilateral trade between the two countries is pegged at about 150 billion USD and the two governments have set their sights on achieving 500 billion USD in the near future.

The two governments, over the years, have established several agreements, MOUs and bilateral platforms to review, examine and increase trade and investment between the two countries. The Economic Affairs Committee provides inputs to these ongoing dialogues and conveys the concerns of AMCHAM members to these bilateral platforms.

Chairman

Mr. Ajay Mehra
Non Executive Chairman
KPMG India Pvt. Ltd.

Electronics Manufacturing Committee

To position India as a global hub for electronic component manufacturing, major investments from global players as well as Indian companies and SMEs is the urgent need of the hour. In 2019, the Union Cabinet gave its approval to the National Policy on Electronics 2019 which envisions positioning India as a global hub for electronics system design and manufacturing. The schemes to promote electronics manufacturing combined with the Prime Minister's call for an 'Atmanirbhar Bharat,' have rejuvenated hopes of a rise of the indigenous electronics industry, allowing India to be truly self-sufficient. Against this backdrop, AMCHAM realizes the importance of electronics manufacturing sector in India and created a committee to address the issues faced by U.S. companies in India and to work with GOI on supporting their plans and growth of the sector with the help of U.S. industry in India.

Chairman

Mr. Gurpreet Singh Brar
Vice President
HP India

Co-Chairman

Mr. Naveen Tandon
Head – Policy & Strategy
Apple India Pvt. Ltd.

Energy Committee

Energy has been universally recognized as one of the most important inputs for economic growth and human development. India is in the midst of a profound transformation that is moving the country to center stage in many areas of global interaction. India's energy sector has grown tremendously in recent years. Further economic and population growth, allied to structural trends such as urbanization and the nature of the envisioned industrialization, point unmistakably to a trend of continued rapid expansion in demand for energy. In this scenario the energy committee has a vital role to facilitate U.S. – India collaboration across the energy sector. This sector has strong potential for new growth and investment that could contribute to the economic prosperity of both countries.

- **Energy Storage (includes electric mobility, renewables, micro grids)**
Energy storage is one of the most crucial and critical components of India's energy strategy and also for supporting its sustained thrust in renewables. The working group for energy storage applications will cover areas such as integration of renewable energy with distribution and transmission grids, energy storage (battery) for electric mobility and setting up of micro grids with diversified loads or stand-alone systems.
- **Oil, Gas & Petrochemicals (includes biofuels)**
India is the third largest consumer of energy in the world and its chemical industry is the third largest in Asia and sixth largest globally. The working group for oil, gas & petrochemicals will cover areas such as exploration and production, pipelines, LNG, refining and petrochemicals and biofuels.

- **Providers of Products and Services to the Energy Sector**

Energy consumption of India in the past decade has increased at a compound annual growth rate of more than 5% and is expected to grow at almost 4% annually in the future. Providers of various products to the growing energy sector and services such as EPC, digital transformation, etc. will constitute this working group.

Chairman

Mr. Anil Bhatia
Vice President & Managing Director
Emerson India

Co-Chairman

Mr. Chirag Bajjal
Managing Director, Commercial HVAC & Chairman of Board
Carrier India

Global Capability Center Committee

Global Capability Center (GCCs) are in the forefront of the accelerated pace of innovation happening in the country today. India's attractiveness as a GCC destination is growing year-on-year, and the availability of talent at scale has been one of the primary growth drivers. There are about 1,700+ GCCs in India today, employing more than 1.4 million people nationally, and a significant percentage of employment is created by American companies in India.

A large chunk of India's GCCs belong to American companies which consist of a fairly young workforce. However, the nature of work being delivered by GCCs has been rapidly evolving which present its own challenges to existing and new American companies. Korn Ferry projects that by 2030, several large economies will face significant talent deficits. The only bright spot in this picture is India – where they anticipate a surplus, primarily driven by the demographic dividend India is expected to receive. While the large young workforce represents a significant opportunity for us, however it is what we will do now from a skilling perspective that will determine if India is successful in reaping this dividend. From a near term perspective, several research reports have corroborated the challenges in hiring skilled team members to meet the ever-increasing demand. This poses as a challenge to all U.S. companies for which we must collectively respond and resolve. The GCC Committee is an opportunity for us to take a holistic approach to examine the challenges and identify potential solutions. AMCHAM's Global Capability Center (GCC) Committee aims to become a credible voice in the GCC sector by way of meaningful and engaging initiatives. The committee aims to create value for its members through policy advocacy and creating a conducive platform for exchange of ideas and thoughts.

Chairman

Mr. Prakash Bodla
Managing Director
Carrier Technologies India Ltd.

Co-Chairperson

Mr. Santosh Kulkarni
Managing Partner & Global Leader – Global Transformation Centers Business Unit
IBM

HR Committee

The HR Committee was formed with the following three key pillars: 'Lead, Build and Share.' It aims to lead change to promote advocacy for critical areas in HR. To elaborate, it aims to build and drive initiatives for skill development, to consistently upgrade competence and provide an interactive platform for its members to be able to share best practices. The HR Committee discusses leadership for managing transformation, the building of organizational culture and values, strategic talent acquisition and development of employee engagement, facilitating synergies across employee communities and better preparedness for foreseeing emerging risks. With workplaces evolving rapidly, HR executives are facing the twin challenge of transition into the hybrid world while maintaining culture and ensuring all HR processes work together in an equitable manner. The committee brings together HR leaders from across sectors to brainstorm relevant issues under the wider HR horizon.

The committee has an annual Future of Work Conference which this year focussed on hybrid model engagement, building an inclusive ecosystem, moonlighting and building leadership capabilities and pipeline.

Chairperson

Dr. Kiranmai Pendyala

Human Resources Corporate Vice President, India Technology Center
UPS

Co-Chairman

Mr. Samrat Sarkar

Infrastructure & Smart Cities Committee

The Infrastructure & Smart Cities Committee aims at providing member companies opportunities for business growth and expansion and has extensive interactions with infrastructure related Ministries both at the central and state level governments and the U.S. Embassy. Committee activities focus around new and emerging opportunities for U.S. companies in India, introduction of new technologies, B2B interactions, proactive policy

advocacy and support in addressing challenges faced by member companies. The committee has been focusing upon roads and highways, ports, airports, smart and emerging cities, data centers, construction technologies, mobility and logistics and enabling companies to leverage opportunities arising out of the U.S.-India cooperation dialogues on infrastructure and play a prominent role in supporting India's march towards Vision India@2047.

Chairman

Mr. Rajesh Dhar
Sr. Director Industry Vertical Sales
Hewlett Packard Enterprise

Co-Chairman

Mr. Sanjay Chadha
Head of Public Policy
Uber India Systems Pvt. Ltd.

Manufacturing Committee

The manufacturing sector is vital for India's economic progress. The government has prioritized this sector and taken a number of proactive steps for the growth of industry. U.S. companies have been manufacturing for decades in India across various sectors such as automotive, chemicals, heavy machinery, pharmaceuticals, etc. However, significant challenges remain for companies manufacturing in India such as labour laws, different tax structures in different states and complications in supply chains, among others, that the committee raises with appropriate officials.

Medical Devices Committee

Medical technology advances in the last few decades have not only changed the practice of medicine, but have also saved lives, increased access to care and improved quality of life. Life expectancy has boosted manifold across the world owing to advances in medical technology. Consistently, scientists made major advances in our understanding of the genetic code and transfer RNA and setting the stage for the exciting fields of genomics, epigenomics and bioengineering.

AMCHAM has been working towards highlighting the critical role of the medical device industry in the healthcare scenario and working on the policy framework with the government for creating and improving the ecosystem for medical devices in delivery of world-class treatment, preventive medicare and diagnostics. The working group aims to foster a partnership with government and trade bodies and promote policies that ensure sustainable access to the latest, highest quality medical technologies by healthcare professionals and their patients in India.

Chairman

Mr. Manoj Madhavan

Supply Chain & Logistics Committee

The Supply Chain & Logistics Committee is a committee of supply chain management professionals who aim to create awareness and visibility of the SCM domain and discuss the various supply chain and logistics challenges faced by businesses. The committee serves and addresses the issues and trends of supply chain in India for the future, to the government and public at large in coordination with other organizations, professional associations, corporates and government agencies, to expand AMCHAM India's reach and programming in the supply chain domain. It also assists in expanding awareness of the supply chain profession in the country and its value to supply-chain management professionals working in the region through various meetings and interactions with key officials. It conducts programs that create quality networking opportunities to meet the needs of the India SCM community.

Vision:

- To be a respectable and credible voice in industry circles on supply chain and logistics issues.
- To be a center of excellence on supply chain global best practices.

Mission:

- To communicate challenges faced by business to decision-makers.
- To collaborate with other industry interest groups on areas of mutual interest.
- Provide development, opportunities to members through the sharing of best practices.

Business Profile : 3M Co. is a USD35.4 billion science-based company with operations in 70 countries and 90,000+ employees.

Globally, the company applies its 51 technology platforms to create more than 55,000 differentiated products for customers through four business groups: Safety & Industrial, Transportation & Electronics, Health Care, and Consumer. Our four business groups bring together common or related 3M technologies, enhancing the development of innovative products and services.

3M India was incorporated in 1987 and is headquartered in Bengaluru. The Company has manufacturing facilities at Ahmedabad, Bengaluru and Pune. There is a Customer Innovation Center (R&D Center) at Bengaluru and a Customer Technical Centre at Gurgaon.

President, Boeing India
3rd Floor, DLF Center
Sansad Marg
New Delhi -110001

Phone : 91 - 11 - 4656 6068
Fax : 91 - 11 - 4656 6001
Email : salil.gupte@boeing.com

Business Profile : Boeing is the world's largest aerospace company and leading provider of commercial airplanes, defense, space and security systems, and global services. Boeing has been a trusted partner of India's aerospace sector for more than 75 years, both as the mainstay of India's growing commercial aviation sector and in the modernization and mission readiness of the country's defence forces.

Boeing is focused on delivering value to Indian customers with advanced technologies and committed to creating sustainable value in the Indian aerospace sector — developing local suppliers, shaping academic and research collaborations with Indian institutions, and facilitating road maps for airspace management. Boeing's business strategy is aligned to the country's aspiration to "Make in India" and "Skill India," through investments in manufacturing, skill development and innovation.

Today, Boeing's sourcing from India stands at \$1 billion a year from a network of more than 280 suppliers. Boeing currently employs over 5,000 people in India, and more than 13,000 people work with its supply chain partners. The Boeing India Engineering & Technology Center (BIETC) in Bengaluru and Chennai undertakes complex advanced aerospace work and supports Boeing's global engineering growth. Boeing's wholly owned engineering and technology campus with future avionics manufacturing and assembly capability is coming up in Bengaluru. A joint venture with Tata Group produces AH-64 Apache helicopter fuselages and 737 tailfins in Hyderabad for customers around the globe. Boeing India employees serve communities and citizenship programs to inspire change and make an impact on more than 500,000 lives.

Business Profile : All the facts and figures that talk to our size and diversity and years of experiences, as notable and important as they may be, are secondary to the truest measure of Deloitte: the impact we make in the world.

So, when people ask, “what’s different about Deloitte?” the answer resides in the many specific examples of where we have helped Deloitte member firm clients, our people, and sections of society to achieve remarkable goals, solve complex problems or make meaningful progress. Deeper still, it’s in the beliefs, behaviours and fundamental sense of purpose that underpin all that we do.

Deloitte Globally has grown in scale and diversity - more than 345,000 people in 150 countries, providing multidisciplinary services yet our shared culture remains the same.

ESP ENGINEERED COMPONENTS

Mr. Barath Raghavan

Director - Asia
No 75, Abdul Kalam Street
Nagalkeni
Chennai - 600044

Mobile : 91 - 95000 56166
Email : barath@espint.com

Business Profile : ESP has been serving the OEM market for over 50 years. ESP is a global and domestic supply chain specialist for seals and rubber products. At ESP, we make small parts a big part of your bottom line.

ESP has successfully developed in-house engineering that helps design seal applications and also provides value-added assembly and inventory management programs. After working with customers on design, ESP then uses its qualified domestic and global partner factories to find the best cost manufacturer of the component. Components include sub-assembly, oil seals, seal kits, o-rings, molded rubber and specialty gaskets. ESP can then provide any necessary sub-assembly or add the components to a highly automated inventory management program.

Leader - Global HR Operations
Intuit India Product Development Center Pvt Ltd.
Building No. 8
Ecospace, Bellandur
Bengaluru 568103

Phone : 91 - 80 - 4176 9800

Business Profile : Intuit India Development Center is a 100% subsidiary and the Microcosm of Intuit Inc, USA. Intuit is a global technology platform that helps the customers and communities we serve to overcome their most important financial challenges. Serving millions of customers worldwide with Turbo Tax, QuickBooks, Mint, Credit Karma and Mail Chimp. We believe that everyone should have the opportunity to prosper, and we are dedicated to finding new, innovative ways to make that possible.

The work of powering prosperity goes beyond our products. Around the world, people struggle to make ends meet. Economic opportunity is still not available to all. In addition, climate change is having an oversized impact on distressed communities. At Intuit, we are committed to using our unique position to find ways to power prosperity, especially for those that need it most.

Email : subas.das@kbr.com

Business Profile : KBR delivers science, technology, and engineering solutions globally to governments and companies in over 80 countries. KBR employs approximately 28,000 people worldwide with operations in 40 countries. With a 100-year history and culture of innovation and mission focus, KBR creates sustainable value by combining engineering, technical and scientific expertise with full life cycle capabilities to assist our clients in meeting their daily challenges. In 2020, KBR announced the transition from the three-segment business model to a two-segment model, featuring our GS and TS businesses, further demonstrating continued advancement of KBR's long-term vision. Our Government Solutions (GS) business segment provides full life cycle support solutions to defense, space, aviation, intelligence, and other programs and missions for governments around the world. KBR has domain expertise across mission-critical, long-duration programs aligned with critical priorities of health and human performance, defense modernization and space. Our GS business spans from key U.S. government customers, including the U.S. Department of Defense and NASA; U.K. government customers, such as, the U.K. Ministry of Defense, London Metropolitan Police and other U.K. Crown Services; and the Royal Australian Air Force, Navy and Army. Our Technology Solutions (TS) business segment combines KBR's sustainability-focused, licensed proprietary technologies, equipment and catalyst supply, digital solutions and associated knowledge-based services into a global business. From our highly aligned advisory and consulting services through scope definition, advanced technologies and project life cycle support, our TS business segment works with customers to provide an optimal approach to maximize their return on investment. Our TS operations extend across North America, Europe, the Middle East, Africa, Australia, and Asia. KBR Technology Solutions (TS) business objective is to offer sustainable technology solutions.

Mr. Sanjay Chadha

Head of Public Policy

23rd Floor, One Horizon Centre

Golf Course Road, Sector - 43

Gurugram - 122002

Email : sanjay.chadha@uber.com

Business Profile : Uber's mission is to create opportunity through movement. We started in 2010 to solve a simple problem: how do you get access to a ride at the touch of a button? More than 10 billion trips later, we're building products to get people closer to where they want to be. Uber is available across 125 cities in India where people can book a ride on our app across two, three and four wheel products designed for their intracity and intercity travel needs. By changing how people, food, and things move through cities, Uber is a platform that opens up the world to new possibilities
